

Turning steel into lasting value

End-to-end solutions in heavy fabrication, structural steel, welding, and pre-engineered buildings.

NAXOS

NAXOS COMMODITIES
A HEAVY FABRICATION &
STEEL BUILDING COMPANY

naxoscommodities.com

WHO WE ARE ●●

Naxos Commodities is a steel solutions company focused on heavy fabrication, precision welding, structural steelworks, and pre-engineered building systems. With a commitment to quality, reliability, and execution, we serve industrial, commercial, and infrastructure requirements through tailored steel solutions built for performance and scale

WHAT DEFINES US

Heavy
Fabrication
Expertise

Steel
Engineering
Capability

Quality-Led
Execution

Project-
Oriented
Solutions

“One must forever strive for excellence, or even perfection, in any task however small, and never be satisfied with the second-best.” — J.R.D. Tata

NAXOS

naxoscommodities.com

OUR CAPABILITIES ●●

● Heavy Fabrication

Custom fabrication of steel components and assemblies built for demanding industrial and commercial requirements.

Pre-Engineered Building Solutions ●

Efficient steel building systems developed for speed, scalability, and dependable project delivery

● Structural Steel Works

Fabrication of steel members and support systems designed for strength, stability, and long-term use

Facility

Production area: 8000 sq.ft.

Max Lift :10 tons

Welding: MIG, Flux Core and Countinous

Submerged Arc

Cutting: Laser Cut, Gas Cut & Plasma Cut

Finishing: Shot Blasting & Painting

Production Capacity of 2000MT of annual processing.

OUR CAPABILITIES ●●

● CNC Laser, Plasma & Profile Cutting

- Cutting Bed: 3000mmx12000mm
- Materials: MS, Stainless Steel, Carbon Steel & High Tensile Alloys
- Profile: Upto 150mm Thickness & +/- 0.15 mm linear variance target where job setup allows

● Process Coverage:

- MIG-MAG, TIG, SMAW, SAW, and FCAW welding process coordination
- CNC bending, plate rolling, press brake work, and forming support.
- Shot blasting, industrial painting, and heat treatment coordination where required.

- Heavy steel fabrication services for machine chassis, base frames, pallets, skid mount frames, and other structural frames, plant-side support steel, and load-bearing industrial assemblies.

OUR PROJECTS

● Machine Base Frames

- Dimensional Accuracy:
● Maintaining a sub <1mm accuracy large fabricated base frames

- Handling: Upto 10mt precision component handling

● Execution: Manufactured as per customer drawing and technicals requirements to ensure optimal performance

● OEM Weldments:

- Design Versatility: Fabrication of custom weldments across varied designs, geometries and configurations, matching customer's specifications

- Scale & Complexity: Ranging from bulk handling components serving construction and mining industries to sensitive process equipment catering heavy industrial machineries

HEAVY FABRICATION

Engineered fabrication solutions built for demanding industrial and structural applications.

Quality Assurance

Every stage is monitored to maintain accuracy, consistency, and dependable fabrication standards.

Design Accuracy

Our processes help us achieve

**Dimensional Accuracy
& unmatched Surface Quality**

NAXOS

naxoscommodities.com

PRE-ENGINEERED BUILDING SOLUTIONS

Engineered steel building solutions tailored for industrial, commercial, and functional space requirements.

Serving
Industrial
Construction &
Infrastructure
Sectors

Built For
Warehouses,
Heavy Factories,
Industrial Sheds,
Structural
Frameworks &
Project specific
Applications
